

NAMING FACILITIES/RECOGNITIONS/MEMORIALS

In it's discretion, the Board of Directors shall approve the name of all District schools, functional rooms and physical properties. These names shall reflect persons who have attained national or local prominence or the geographic features of the area. This includes all donated items. On occasion, a group of students, staff and/or community members may desire to name a portion of a facility in honor of a person or recognize individuals for their accomplishments with a plaque or other physical objects or memorials. The Board shall approve plaque locations. The group shall submit a written request to the school board, which may refer the request to a committee.
