

Stanwood-Camano School District

Family Communication

March 27, 2020

Q: What is next for educational support?

A: We have recently sent out instructional packets via Clever, school websites, and the district website. For families that indicated they did not have access to internet or technology access, we sent instructional packets out via the US Postal service. In order to continue to improve our remote delivery of educational services, we will be sending a survey out on Monday, March 30, 2020 in order to assess how we can improve what we are doing. Please look for the survey and respond as it will give us important information for future educational services and support.
