

Stanwood-Camano School District

Family Communication May 15, 2020

Thank you for taking last week's survey on Continuous Learning. We had over 750 responses to help refine our work. We are paying close attention to the barriers and challenges that you shared and have shared these with our building principals.

As a result of the survey, we have updated the grading document to provide more clarity for our middle and high school students. Click the updated [grading document](#) (English)/[Grading document-Espanol](#) to access the latest version. See yellow highlights for updates.

The District continues to focus on access for our students. We have distributed 2,031 Chromebooks and have partnered with the Sno Isle Libraries and Stanwood-Camano Area Foundation to acquire 150 hotspots which are being dispersed to families.

Our food service continues to provide meals for our students. To date, they have dispensed 35,792 breakfasts and 35,792 lunches for a grand total of 71,584 total meals served. They continue to work collaboratively with the Stanwood Camano Foodbank and KidsEatz to make sure our students are fed throughout the school closure.

Finally, if you haven't participated in the 2020 Census. It isn't too late. Please click [here](#) to be counted.
