Office of Superintendent of Public Instruction (OSPI) Creates Committee to Research School Options for Re-opening

Many families have asked about what school will look like next year. OSPI has formed a work group of 120 stakeholders to discuss how and when to reopen schools. The district will follow the guidance from this work group. If you would like to learn more about this group click on this link: [Reopening Schools](#). If you would like to see the examples of options for reopening click on this link: [Examples for Consideration](#)

OSPI will share the options for Re-opening between June 8 and 12, 2020. When the District receives this information, we will share with families and staff.

New instructional materials will be available on Tuesday, May 26.

Reminder: Grab and Go Meals will not be available on Monday, May 25. All school services and offices will be closed for the Memorial Day Holiday.
