

Stanwood-Camano School District

Family Communication

June 19, 2020

Teaching and Learning

We would like to thank our students and families for boldly learning about and engaging in Distance Learning these past three months. We will continue to work on and improve our distance learning practices over the summer months should we have to revert back to Distance Learning in the future.

In order to stay sharp, we encourage students to continue to access learning through our district site:

https://www.stanwood.wednet.edu/news/general/online_learning_resources

Reopening Schools

We invite families to participate in a survey related to reopening schools. Families should have received the message via School Messenger this morning. They can also be accessed via the [District Website](#). We are asking that families complete a survey for each school they had children in attendance.

Food Distribution

Meal distribution will continue in the same manner through June 30th. Information about food distribution for July and August will be sent next week.
