

Health Protocols

Families have asked what the protocol is when a school has a confirmed case of COVID 19. The district immediately contacts the school nurse and the Snohomish or Island County Health District. The Snohomish Health District has provided the following documents for families.

<http://www.snohd.org/DocumentCenter/View/5251/Schools-info-101620?bidId=>

<http://www.snohd.org/DocumentCenter/View/5278/School-and-COVID-Spanish?bidId=>

We also have protocols in place for students/staff who are ill. When students or staff display the following symptoms, they must go or stay home:

- Fever/Chills
- Loss of taste/smell
- Shortness of breath/difficulty breathing
- Fatigue
- Muscle Aches/Pains (not attributable to other causes)
- Headache (not attributable to other causes)
- Congestion/Runny nose (not attributable to other causes)
- Cough
- Nausea/vomiting
- Diarrhea
- Sore throat

When students/staff have these symptoms, they must stay home for 10 days or until they have a negative COVID test.

We are reminding everyone that it is essential to wear masks, maintain social distancing, avoid indoor in-person gatherings outside of immediate family, and practice good hand hygiene. If a social gathering must occur, these gatherings should be held outside.
