

Stanwood Camano School District

TO : BOARD OF DIRECTORS
FROM : GARY PLATT, EXEC. DIR. - BUSINESS/FINANCE 
SUBJECT : STANWOOD HIGH SCHOOL HEATING AND
VENTILATION PROJECT – **FINAL ACCEPTANCE**
DATE : JUNE 2, 2015
TYPE : ACTION NEEDED

The Stanwood High School heating and ventilation project is now fully completed. The project requires school board approval of the final acceptance date. Our maintenance manager, Tom Webb, has indicated that all of the punch list items have been corrected.

This project was awarded under a bid administered by the Washington State Department of Enterprise Services and was partially funded by a \$310,000 state grant. The project replaced boilers, control systems, and other related components of the heating and ventilation system along with updating nearly all of the lighting fixtures. These repairs will improve the overall learning environment and should extend the life of the building by six to eight years.

Once board approval has been granted, the district begins the 45-day lien-filing period. In addition, the district will be able to begin requesting releases from the Departments of Labor and Industries, Revenue, and Unemployment.

Recommendation:

We recommend the board **move to approve the final acceptance of the Stanwood High School heating and ventilation update project performed by McKinstry Essention effective June 2, 2015.**
