

Stanwood-Camano School District

Family Communication

February 19, 2021

We only have a few updates for you today, mostly in regards to our hybrid plan for secondary students.

Transportation

Transportation information is now available for Grades K through 12. Parents are able to access individual student transportation online. The Versatran eLink is the portal to access bus routes, stop time, location, and the bus your child will be riding. If you do not see your student(s) transportation information, [please contact your student\(s\)' school](#).

New Mask Requirements

New variants of coronavirus have been verified in Snohomish County. The CDC recommends double layers for all masks. After careful consideration, conversations with our local health districts, district nurses, and with guidance from the CDC, students and staff may no longer use gaiters as a cloth face covering. The new variants of the coronavirus are more easily transmitted. This change will provide additional protection to all people on our campuses. The CDC recommends that masks:

- Have two or more layers of washable, breathable fabric
- Completely cover your nose and mouth
- Fit snugly against the sides of your face and don't have gaps
- Have a nose wire to prevent air from leaking out of the top of the mask

Secondary Hybrid

Our middle school students and high school special populations will begin a hybrid learning model beginning Monday, February 22. All families/students need to be aware of the expectations below:

Secondary Return Student Expectations

We are excited to have your child(ren) return to school and have outlined some expectations in order to maintain health and safety and minimize the transmission of COVID-19. The following are student expectations:

1. Students will be screened prior to entering the school facility. This includes:
 1. Factually answering questions about their health.
 2. Having their temperature taken.
2. Students will be expected to properly wear a cloth or blue paper mask that covers both their mouth and nose. (Exceptions have been made for alternate PPE in very specific situations)
3. Students will remain at least 6 feet apart from other students and staff at all times.
4. In physical education classes students are expected to remain 6 feet apart.
5. In performing arts classes students are expected to remain 9 feet apart when engaging in activities.
6. In band classes students are expected to maintain a minimum of 9 feet of distance between individuals in the classroom when playing an instrument. Appropriate covers must be in place on the instruments and appropriate masks must be worn.

7. Students will not eat in the school facility except in the case of a medical requirement. Students may be allowed to eat a snack outside the facility before and after school with social distancing.
8. Students will be allowed to bring water bottles and with teacher permission, step outside the classroom to consume water.
9. Students will use restroom facilities during class with teacher permission in order to prevent multiple students in the restroom.
10. Students will adhere to posted occupancy maximums in classrooms and bathrooms.
11. Cell phone use will not be permitted in the classrooms.
