

Stanwood-Camano School District

April 13, 2021

Message from the Stanwood-Camano School District Board of Directors:

At the April 8, School Board Meeting, our superintendent search consultants from Northwest Leadership suggested that we close the on-line survey on **April 17**, rather than April 24, as earlier announced. The Board learned that the survey has generated 378 staff and community responses. Closing the survey a bit early will give the board enough time to carefully review survey responses in preparation for the Board's consideration of the Superintendent position applicants.

The Board is very appreciative of the response to the survey and looks forward to receiving even more staff and community input via the survey through April 17 and the two rounds of interviews, scheduled for May 8 and May 11, 12, and 13. Details about the interview opportunities will be available soon.
