Re: CTE Engineering Lab Replacement

In 2018 the computers in the Engineering & Design Lab at Stanwood High School were purchased and have been heavily utilized by students since that time. As technology has advanced, they are in need of replacement to keep up with the software demands of the program as we strive to teach students on industry standard software. At this time, we are seeking approval to purchase 32 student/ teacher stations for this lab at Stanwood High School as listed on the attached quote. We have worked with the Technology Services Department to ensure these computers exceed the standards set for technology in the district and the needs of the program.

### Recommendation:

It is recommended the board move to approve the attached agreement for the purchase of computers for the CTE Engineering programs.

**EXPLORE**
