

STUDENT ADVISORS TO THE BOARD OF DIRECTORS

It is the policy of the Stanwood-Camano School District to have two high school student representatives, one from each high school, to serve as advisors to the Board of Directors. Student representatives on the board provide essential insight and support to board operations. The functions of the student advisors are to:

1. Represent the students of the district through communications with the Board of Directors.
2. Convey student opinion to the board regarding items under consideration.
3. Report to the Associated Student Body regarding board deliberations and actions.

The student advisors shall be full participants in all board discussions and shall be bound by all rules and regulations pertaining to regular board members. The student advisors will not have the right to make motions, vote or hold board office. The student advisors may attend executive sessions by invitation.

Two representatives will be appointed by the school board.
