

## **Administrative Intern Program**

***Our Promise – “Every student in the Stanwood-Camano School District is empowered to learn in an inclusive setting and is prepared for the future of their choice.”***

## **Stanwood-Camano School District Administrative Internship Procedures**

The Stanwood-Camano School District recognizes that the demand for qualified, capable leadership is critical. The unique relationship that exists between the administrative intern and the district is acknowledged. In addition to meeting the provisions of [WAC 181-78A-400](#) and [WAC 181-78A-270](#) and regular college/university requirements, the district's core program is designed to provide exposure to the preschool through grade 12 experience, programs, and curriculum for all interns regardless of current assignment. To the best of its ability, the district will provide intern opportunities for each participant. The aim is to allow interns to benefit from a variety of district-building experiences and gain familiarity with the district's organizational structure and departmental functions as they relate to evolving issues pertinent to successful building leadership. Foundational to our commitment to interns is our District Promise – Every student is empowered to learn in an inclusive setting and is prepared for the future of their choice.

The district will determine annually the total number of assigned administrative interns and their assigned locations. If an intern is approved for one year and does not serve, there is no carryover of the approval to a subsequent year. The district also reserves the right to deny an application of any candidate for any reason. Interns/internships within the SCSD are not to be established outside of this district process. It is the responsibility of the intern to communicate the status of their internship with their university.

The administrative intern will be responsible for meeting all district and college/university requirements. Interns are to meet with the mentor administrator before July 1 to select and schedule activities that meet the provisions of Chapter 181-83 Washington Administrative Code and college/university requirements. Interns are to be involved in the program from one month before school opens in the fall until one to two weeks following school closure, depending upon the school calendar. In addition, interns are responsible for maintaining contact with the college/university supervisor and facilitating interaction between the college/university and the mentor administrator.

Satisfactory performance of all regular certificated duties is required. Time not spent on normal duty may be devoted to the internship program. Interns are expected to spend time beyond the regular school day. The internship experience should not negatively impact the intern's primary duties as a teacher and should not create situations where a class of students is receiving instruction from a substitute in excess. Interns and principals should plan together to ensure the intern's absences are as few as possible and prioritize classroom responsibilities while still meeting the internship requirements.

The evaluation of an intern's performance relative to the internship is the responsibility of the mentoring administrator and college/university supervisor. Both mid-year and end-of-year performance summaries will be forwarded to the Executive Director of Human Resources.

The district reserves the right to terminate an administrative internship during its term for reasons including, but not limited to, poor performance, misconduct, or misuse of information and position. Abuse of any information accessed through the internship program will be grounds for immediate discontinuance of the program. Interns are to be aware of their role as an intern and their conduct as a representative of the district. This includes but not limited to social media.

Candidates desiring to apply for an administrative internship in the Stanwood-Camano School district must have their principal/supervisor's written permission to apply. Once approved, obtain an application packet from the human resources department. Completed internship application packets are to be submitted to the Executive Director of Human Resources no later than **January 31** of the year preceding the internship. Applications will be screened, and an interview process will follow. The interview team will communicate a candidate's approval for an internship with the candidate and supervising principal. The application and supporting documentation will be treated with strict confidence and will not become a part of the applicant's personnel file.

## **Intern Expectations**

The intern is expected to:

- Intern with a supervising administrator who has at least three years' experience at the administrative level.
- Demonstrate the ability to maintain a professional demeanor and conduct during the school day and outside the school day as it relates to the school district and the intern's relationship with the district.
- Understands and has demonstrated a strong knowledge of the impact of and appropriate use of social media, as it relates to personal professionalism, the school district, and the intern's relationship with the district. Has the ability to not engage in online activity as a representative of the district.
- Has demonstrated openness to feedback and a desire to grow professionally as a result.
- Maintain strict confidentiality.
- Possess and demonstrate in their work previous to their internship the ability to respond to stressful situations in a professional and positive manner.
- Engage with students, staff, and the community in a culturally responsive manner.
- Continuously improve social-emotional competencies.
- Curate the competencies of an instructional leader first.
- Work with the supervising administrator before and after the school year.
- Attend designated staff development programs when invited.
- Participate in district and building committees when invited.
- Attend required classes/workshops/meetings as designated by the administrative supervisor and district administrators.
- Work cooperatively and supportively as a member of administrative teams.
- Show evidence of ongoing collaboration between school and guardians.
- Sustain effective learning experiences for students in your current assignment and is data literate.
- Participate in all school/program activities with the same time and energy as that of a practicing administrator (i.e., extra-curricular and community activities, board meetings, staff training, etc.).

- [Apply for the state internship grant for release time.](#) If the state grant is not available or not awarded to the intern, release time for the internship is the responsibility of the intern and his/her sponsoring principal and school.
- Accept responsibility for other costs related to the internship.
- Visit and observe other schools and grade levels within the district.
- Participate in the August leadership team retreat when invited.
- With the Building Administrator, secure one guest teacher to fill in for all intern-related absences.

District internship may be terminated if expectations are not fulfilled and if any part of the application and interview is falsified. A copy of these expectations should be kept for the intern's records.

## MENTOR ADMINISTRATOR EXPECTATIONS

To offer the best possible program, an intern shall not be assigned to an administrator with less than three years' experience. In extenuating circumstances, requests for exceptions will be considered. It is suggested that no more than one intern should be assigned to a building. The committee will reevaluate intern placement should the administrator change assignments prior to the beginning of the internship. All administrators and interns are expected to create the conditions for students and staff that will ensure: "Every student in the Stanwood-Camano School District is **empowered to learn** in an inclusive setting and is **prepared for the future** of their choice."

The mentor administrator(s) shall collaborate with the intern to provide learning experiences in all areas of the field experience. The mentor administrator will meet with the intern to select appropriate activities and establish a recommended calendar for completion of a variety of field experience activities. In structuring the internship for successful candidates, the needs of students, the intern and the district shall be considered. The primary aim for administrators in the Stanwood-Camano School District is to become an instructional leader. This means, administrators prioritize time, effort, and learning to establish clear instructional goals and strategies across all classrooms and programs. To minimize disruptions to students, the building principal and intern should secure one guest teacher to fill in for all internship related absences. The intern will be involved in data literacy, program monitoring, and closing achievement gaps.

The mentor administrator is responsible for monitoring an intern's progress and providing feedback, presenting interns to the staff in a way which supports the intern's ability to function in an administrative role, maintaining contact with the college/university supervisor, helping the intern become involved in experiences which will permit meaningful interaction with a variety of people and programs within the district and community. The mentor evaluator will complete a mid-year and end-of-year evaluation which honestly reflects his/her conclusions about the intern's ability to function as an administrator.

Any Stanwood-Camano School District administrator has the right to decline supervision of any person desiring to do an internship in his/her building or area of responsibility. Should the supervising administrator accept an intern, it is to be regarded as an additional responsibility and will not impact existing administrative staffing requirements.

## Stanwood-Camano School District

### INTERNSHIP PROGRAM OVERVIEW

#### APPLICATION PROCESS

A complete application packet includes:

- A Stanwood-Camano School District Application for Administrative Internship
- Principal Recommendation Form
- Confidential Reference Form from each of the following:
